PARTH VIRADIYA

UNITY GAME DEVELOPER

SUMMARY

Senior Unity Developer with 7+ years of experience building and publishing games and interactive applications across mobile, WebGL, PC and AR/VR platforms. Co-founder with hands-on expertise in Unity, C#, mobile performance optimisation, gameplay architecture, multiplayer networking, SDK monetisation and backend integrations. Contributed to publishing and growing 7+ games with a combined reach of 100,000+ users/downloads; mentored junior developers.

TECHNICAL SKILLS

Core: Unity 2D/3D, C#, gameplay programming, UGUI, profiling, game architecture, design patterns, custom editor tools, etc..
Mobile & optimization: Android, iOS, Unity Profiler, Memory Profiler, object pooling, Addressables, AssetBundles
Networking & backend: Photon PUN 2, Unity Netcode for GameObjects, WebSockets, Socket.IO, PlayFab Multiplayer, Firebase, PlayFab, REST APIs, Node.js, AWS, Google Cloud, blockchain/NFT APIs
Monetization & analytics: Google AdMob, AppLovin MAX, Unity Ads, Unity IAP, Google Play Billing, Firebase Analytics, GameAnalytics, push notifications
Graphics, XR & platforms: Shader Graph, HLSL/custom shaders, AR Foundation, ARCore/ARKit, Meta Quest/Oculus, VR Interaction Toolkit, WebGL, Windows/PC, console
Tools & delivery: Git/GitHub, Plastic SCM/Unity Version Control, DOTween, UniTask, Odin Inspector, Android/iOS build and publishing

EXPERIENCE

CO-FOUNDER & SENIOR UNITY DEVELOPER | HEXAR GAMES LLP JUN 2022 – PRESENT

- Co-founded a game development business and contributed to Unity game architecture, core gameplay programming and delivery.
- Developed and maintained mobile games, with emphasis on performance optimization, SDK/monetization integration, publishing and live updates.
- Integrated backend services and APIs.
- Mentored junior developers through training and technical guidance, debugging support and development reviews.

UNITY DEVELOPER (FREELANCE / CONTRACT) | FOXCODER JUN 2022 – MAR 2023

- Developed Unity/C# gameplay features for a multiplayer Battle Royale project with blockchain/NFT integration.
- Worked on multiplayer functionality, backend/API integrations and game performance optimization.
- Concurrent contract engagement alongside the role at Hexar Games LLP.

UNITY DEVELOPER | YUDIZ SOLUTIONS PVT. LTD. JAN 2019 – JUN 2022

- Developed Unity game features across mobile and WebGL platforms, including Darkgalaxies and Lidl Aquamini.
- Contributed to gameplay programming, multiplayer development, debugging and cross-platform delivery.
- Progressed from junior-level responsibilities toward senior technical contributions.

PROJECTS & IMPACT

- Royal Mansion · Supermatch 3D Factory · Cubescapes · Merge Forever | Hexar Games LLP
- Contributed core gameplay programming, mobile optimization, SDK/monetization integration, publishing and ongoing updates across these titles.
- Contributed to a broader portfolio of 7+ published games reaching a combined 100,000+ users/downloads.
- Additional projects: Darkgalaxies (WebGL multiplayer); Lidl Aquamini (Android/iOS); Multiplayer NFT Battle Royale (contract).

EDUCATION

- Bachelor of Engineering (B.E.), Information Technology | Gujarat Technological University (GTU) | CGPA: 7.5/10
